DESCRIZIONE ART. 300340
DESCRIPTION

Each side rail is made of 3 oval tubes, dim. 50x25x1,5 mm, made of coated steel with pastic sliding supports.
Rails made of steel sheet made of stainless steel thickness 15/10 where the three tubes slide; lock / unlock device by safety button in the upper section.
The side rails are fixed to the bed ends by swiveling handles, plastic material, easy to operate.
When raised, the side rails cover the total length of the bed.
The structure is totally coated by epoxy powders, average thickness 60/70 microns, oven cooked at a temperature of 180°C for 20'.

THE SIDE RAILS ARE IN COMPLIANCE WITH CEI EN 60601-2-38/A1 NORM.
Dim. cm 215x40 H, over the mattress platform
Weight: 10 kg each.
