Unit of sale:	1 pc.
Minimum order:	1

Description: GYNEX: a chair offering a unique combination of functional, aesthetic and working characteristics. Thanks to its self-balancing seat and back-rest, GYNEX can be adjusted to any build for the greatest patient comfort. The chair is provided with an electromechanical lifting device, having a secondary power supply at 24V. The electric actuators enable the rising and descent from 57 cm off the floor ("0" position) up to a maximum of 96 cm. The back-rest is supplied with adjustable head-rest, can also be provided with a paper roll holder. The leg-rest can be independently adjusted and it has an automatic locking device. The chair can be flattened to a bed position for examination activity, the arm-rest can be removed and independently oriented. The electric control of the chair for upright position is operated by means of a foot pedal. Operating power 230V-50 Hz (available on request 110V-60Hz). Made in Italy.

Back-rest can be adjusted through 180° by a gas spring

Lifting capacity 145 kg
