High kink risk

- **Establish** and **Maintain** an airway in seconds in **Emergency Situations**.
Provide **direct** and **unimpeded airway** to and from lungs
- Available **Cuffed** and **Uncuffed**
- Made from **non-toxic**, clear silicone PVC material to protect delicate mucosal tissue
- **Thermo-sensitive** PVC softens at body temperature for easy intubation
- **Reinforced** and **kink resistant**
- **Flexible** – conforms to patient anatomy and operative position
- All tubes fitted with 15 mm **standard** connector to ensure **compatibility** with circuit connectors
- **Smooth** tip aids atraumatic intubations
- Full-length **radio-opaque** line for determination of exact tube location
- 1 cm **graduation markings** to ascertain insertion depth
- **Latex Free**
- **Murphy eye** ensures atraumatic intubation, and allows ventilation in the event of obstruction of the end of the tube
