**Description:**

Ambu® SAM is a cheap manikin for training with the famous and sought GAS Ambu features. Ambu SAM presents a unique and patented hygienic system that allows to perform the training using a face mask and a bag for the head. In particular, the closed form of the torso with accurate anatomical features allow all students to learn the BLS technique, including the use of semiautomatic defibrillators (DAE) and the positioning of the electrodes. The manikin weighs 2.0 kg. The total length is 70 cm.
